About Bear

About three years ago, Bear came into our care. His owner could not take care of him anymore due to medical reasons. He's wonderful with people, he loves kids and he loves men and women.

Why is Bear a good match for you

I've matched you with Bear because you said you are into an active lifestyle and are also a runner. Bear loves to run and he would be very good as a running partner.

You are looking for a children friendly dog and Bear does great with children and his a great palying mate.

About Bear

About three years ago, Bear came into our care. His owner could not take care of him anymore due to medical reasons. He’s wonderful with people, he loves kids and he loves men and women.

Why is Bear still with us

But there is one problem with this sweet-natured pup — he doesn’t get along with other animals.

Our goal is to find him a home with no other pets, but that’s hard to do, we’ve taken him to hundreds of adoption events over the years, and he just gets overlooked every time.
